About Advance Care Planning

If you had a medical emergency, and couldn't speak for yourself, who would speak for you and make decisions about your care? Would they know what to do?

Advance care planning helps you describe your wishes at the end of life, if you cannot speak for yourself. Your plan may include information about your values, goals and preferences for procedures that you do or don't want to have, as well as other information about your care at the end of life.

The most important aspects of advance care planning are naming one or more Substitute Decision Makers – someone who will speak on your behalf and make decisions for you when you are not able to do so yourself – and having a conversation with them about your wishes.

Your plan can be changed at any time. Your Substitute Decision Maker will only use it if you are not capable of speaking for yourself

You may never need your plan – but if you do, you'll be glad to know that your voice will be heard, and that your loved ones will have the confidence to speak for you.

Note: This is a short form version of our Advance Care Planning workbook. For a more detailed version, visit www.advancecareplanning.ca

Let's get started

1. Think about what's right for you

What are my values, beliefs and understanding about end of life care and specific medical procedures? What's important to me?

2. Learn about medical procedures

There are many medical procedures that can be offered at the end of life. Some may improve your quality of life, others may only prolong life. Different people have different thoughts about these procedures. Learn about various medical procedures.

3. Choose your Substitute Decision Maker

Choose someone who would honour and follow your wishes, and is able to speak for you if you can't speak for yourself

4. Talk about your wishes

Talk with your Substitute Decision Maker, family members and friends who are important to you. Tell your health care team – and if you have a written plan, share it with them.

5. Record your wishes

It's a good idea to write down your wishes or make a recording or video. There are also forms available in most provinces and territories. You can find these by visiting www.advancereplanning.ca and clicking on 'Resources in your Province/Territory' in Quick Links.

6. Review your plan

It's important to review your plan regularly to make sure it reflects your wishes, especially if something in your life changes. Continue the conversation!

My Advance Care Plan

After you've filled out this plan, give it to your Substitute Decision Maker, family members, your doctor and any other health or legal professionals.

Most importantly – have conversations with your Substitute Decision Maker about your plan. They may have questions about your wishes.
